

Eric Zimmer

WORK EXPERIENCE

Fullerton DoIt Best Hardware

- Plumbing
- HVAC
- Appliance Repairs (washers, dryers, dishwashers, water heaters, etc.)
- Other general handyman type jobs

Global Industries (MFS/YORK/STORMOR)

- I worked in the production of grains bins. I mainly produced sidewalls. I operated, maintained, and repaired the machines I used.
- I worked in several other departments, wherever I was needed, including roof bay, fabrication, stiffeners, floors, etc.

Fullerton Care and Rehabilitation

- I worked as a cook. I was responsible for preparing and serving food for over 60 people.

Sentinel Buildings Systems

- I primarily operated the CNC Plasma Machine.
- I operated various other machines including a band saw, press brake, shears, sub arc welders, and painting.
- My job heavily required the use of overhead cranes, forklifts, and Combi-lifts.

Green Plains

- Process Operator – Ethanol Plant
- MSC – Protein Lead

Fullerton Inn

- At this motel, I do a variety of tasks – whatever is needed. This includes taking reservations, cleaning rooms, laundry, getting breakfast ready, and whatever else needs done.

EDUCATION

Fullerton Public Schools

- I graduated with a high school diploma.

Wayne State College

- I attended for one semester, the fall after I graduated high school. I decided it was not for me.

Central Community College

- I am currently a student at Central Community College. I am in the Information Technology program with a specialization as a developer.

ADDITIONAL SKILLS

- I have a lot of experience in roofing.
- I have a lot of experience in pouring concrete.
- I have a lot of experience in other construction-like projects.
- I have worked on and repaired several small engines.
- I am good with computers. If there is something I don't know how to do on a computer, I can usually figure it out.
- I have experience with various power tools including drills, saws, nail guns, grinders, etc.
- I have a lot of experience with the use of overhead cranes.
- I have a lot of experience with the use of forklifts and Combi-lifts.
- I have a lot of experience operating a CNC Plasma machine.
- I have experience drawing various parts using a 2D CAD program.
- I have two years experience as a process operator at an ethanol plant.
- I was a shift lead for MSC – Protein at an ethanol plant.
